## Go-Kart

### Go Kart Description

- Engine power : 200 cm3
- Model engine : Subaru EX21
- Horse power : 7 hp,
- Chassis produced by: Birel (Italy)
- Max Speed on the track : Approx. 40 km/h
- Weight : 135 Kg (Approx.)
- Tank Capacity: 10 Liters

### Good to know

- A driver's license is not required to use the go-carts.
- The go-carts have simple controls: 2 pedals: left foot brakes, right foot gas; no shifting gears.
- Great caution must be taken when driving because the ratio of steering to turning is 1:1 (normal cars have a ratio of 4:1).
- Make always at least a full lap carefully to get acquainted with the go kart and the circuit.
